Grenade, small (or CS or rubber baton) 	20 Round shotgun shell (open) 
9mm/MP5 mag pocket 	Utility pouch complete with optional 'Police' Logo 
Leg mounted pocket holder 	Leg mounted buckle option 
Respirator pouch 	G36 + 9mm Combo pocket (other variations available) 
Utility pouch, Velcro closure 	

**Mk II Police Tactical Waistcoats - Flotation Collar**

The ISP Flotation Collar is a 275N single chamber buoyancy offering complete assurance to Operatives working close to or in a marine environment.

The collar consists of a 275N high visibility bladder complete with reflective tape, oral inflation tube, whistle and a choice of manual or automatic inflation device with 60g CO<sub>2</sub> cylinder.

When zipped onto the ISP Tactical Waistcoat the ensemble is CE certified as meeting the requirements of EC Council Directive (89/686/EEC) Annex II, clause 3.4. Prevention of drowning (Lifejackets etc) (Certificate No ISG/05/397/964). Due to the elasticated side closures, the ensemble is not certificated to EN399.

This ultra compact Flotation Collar can be repacked by following the detailed instructions found in ISP's "Pre-wear check and Re-packing guide". ISP also offers full training instruction if a more detailed and hands-on approach is required. Please ask for details.

**Mk II Police Tactical Waistcoats**

**The totally flexible waistcoat system for personnel involved in**

- Dynamic Intervention/Entry (DI)
- Armed Response Vehicles (ARV)
- General Purpose (GP)

**International Safety Products**

International Safety Products Ltd., is the World's largest manufacturer of inflatable, marine lifejackets and a leading manufacturer/supplier of survival equipment.

We use the very latest in textile technology and pursue an innovative design philosophy, ensuring production of safety equipment capable of performing to the highest standard in the most extreme of conditions.

## Mk II Police Tactical Waistcoats

Side adjustment assures one size fits all

The skeletal waistcoat

### Purpose

Following extensive development work with the UK MoD Special Project Teams, ISP used their design expertise and material technology to develop specific and specialist Tactical Clothing. The designs have since been proven in the most arduous of conditions by professionals over extensive periods. Since then ISP has worked in conjunction with a number of Police Armed Response Units to design and develop a brand new range of tactical waistcoats for Police Forces throughout the UK and beyond.

Robust designs, tough fabrics and first class process techniques were first built into the D.I. vests with particular operational work in mind, for example, Hostage Rescue. The same general requirements are essential for firearms officers on a daily basis including Armed Response Vehicle Operatives.

To support all of the above work ISP used its Core Product Knowledge - Inflatable Lifejacket design and manufacture - to design-in the capability of adding a 275N buoyancy Flotation Collar. ISP's Flotation Collar is currently the most compact of its kind on the market and is consistent with the waistcoats' design criteria of stealth, flexibility and heavy use capability and when fitted allows full access to all ancillary equipment pockets.

## Many Unique Features

### Internal

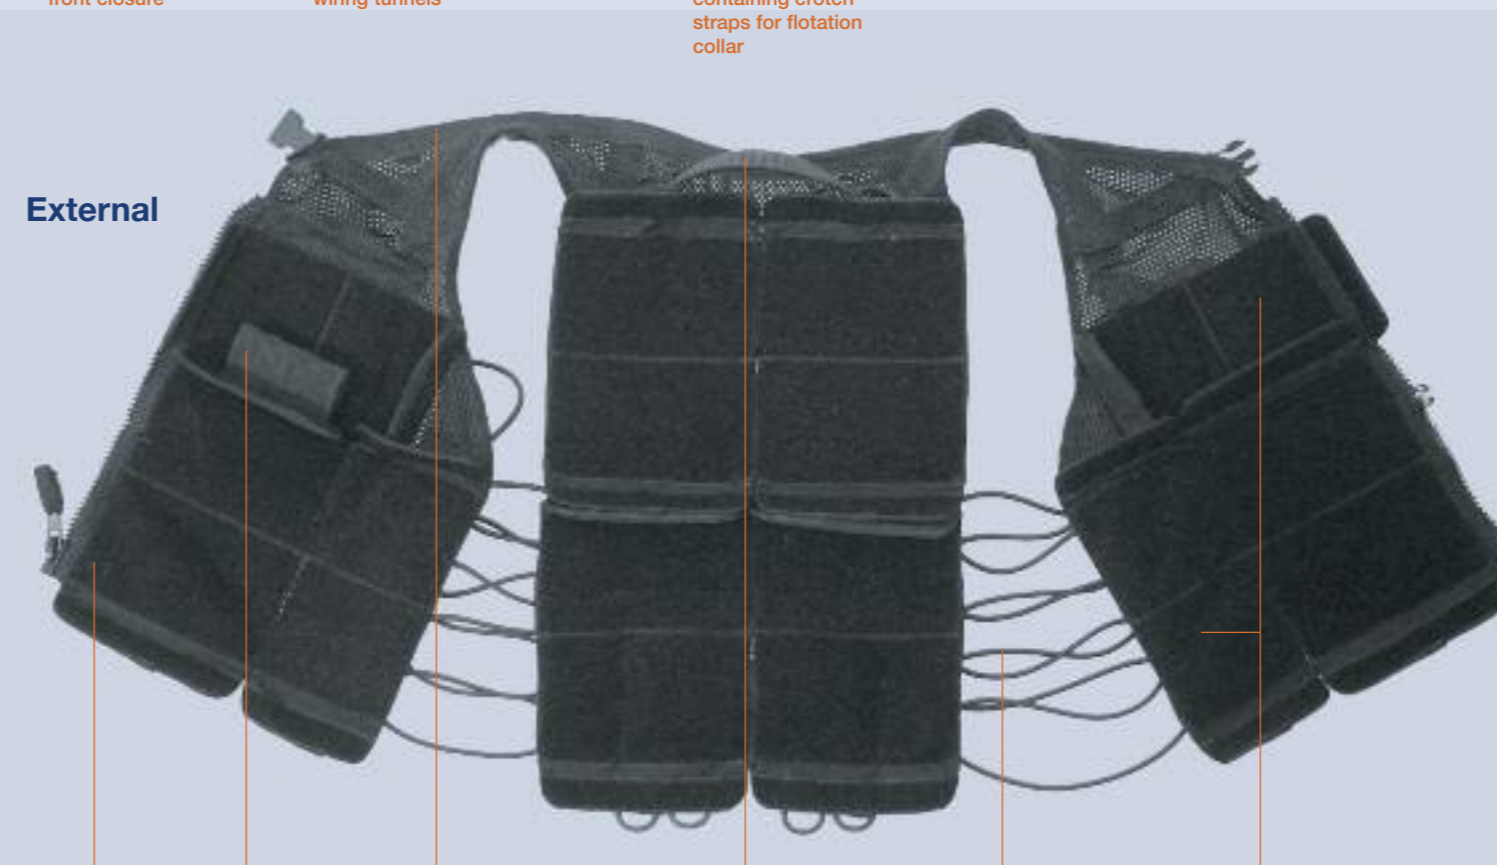

3 Buckle and zip front closure

Communication wiring tunnels

Optional pocket containing crotch straps for flotation collar

6 D-rings fitted

Inside utility pocket

### External

Large 'pocket footprints'

Asp loop

Optional zip for flotation collar attachment

Recovery handle

Elasticated side adjuster

Small 'pocket footprints'

## Typical Dynamic Intervention/Entry System

Removable badge  
Taser cartridge  
Asp

Cuffs/CS spray

Grenade or baton round

Taser holster  
Radio

Recovery handle

Shotgun shells

Grenade or baton round

Detachable blank panel

Respirator pouch

## Typical Armed Response Vehicle System

Recovery handle

Removable badge

Mesh back

Utility pockets

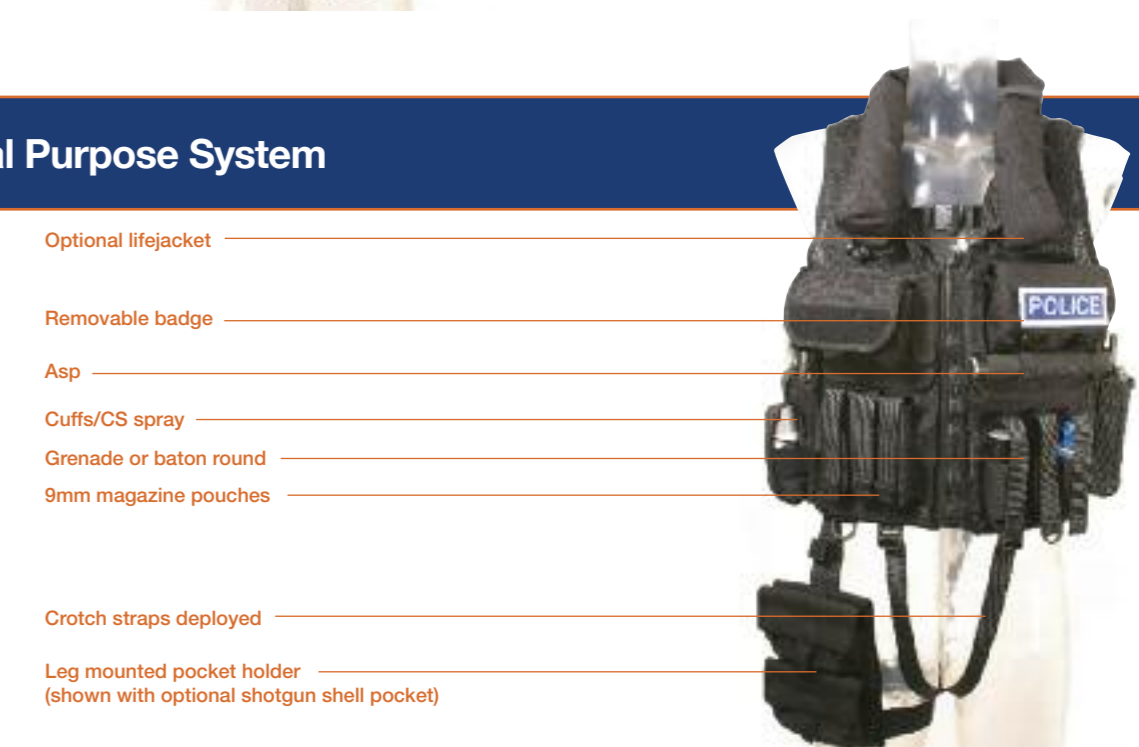

Asp

Cuffs/CS spray

Magazines

Grenade or baton round

## Typical General Purpose System

Optional lifejacket

Removable badge

Asp

Cuffs/CS spray

Grenade or baton round

9mm magazine pouches

Crotch straps deployed

Leg mounted pocket holder (shown with optional shotgun shell pocket)
