WORK

Hansen Protection, headquartered in Moss, Norway, has 140 employees and is predominantly active in the Nordic region. It is organized in three main business segments: Survival suit rental, used by personnel in their transport between land and offshore installations (oil and gas rigs), Personal Protection suits, used offshore and within shipping as well as navy and other marine and hazardous environments and Marine (boat canopies) and Pro textiles, which includes and products for the agriculture, industry and health sectors.

Sea Work is a completely NEW work-suit /constant wear suit developed in close contact with demanding user-groups in the maritime environment. The suit is intended for use by maintenance workers in exposed areas.

The suit is highly ergonomic in construction and offers the user several extra features compared to a conventional abandonment suit for emergency use only.

The suit has inbuilt reinforcement fabric, easy access storage pockets, lifting becket, hard toe boots and specially designed neoprene seals and integrated hood for enhanced comfort in everyday work. Fabric is in a highly dirt-repellent material ensuring easy cleaning, maintenance and service. Reflective patches and HiVis coloured fabric is placed carefully on the exposed portions of the suit where it will help detection at sea.

Loose five finger gloves
Free hands when donning, thermal protection when in use.

Cuffs and hood soft-coated in order to prevent water from slipping into the suit.

High quality TIZip soft nylon zipper to ease donning.

Fixed hard toe boots

hansenprotection.no
